## Asia

*Market momentum continues after originally being initiated by the ECB's announcement last week that it has crafted plans to purchase peripheral sovereign debt. Asian equity markets moved upwards again today (Hang Seng: +1.1%, Kospi: +1.6%), ahead of the Federal Reserve meeting which may result in another round of quantitative easing (and before the German Constitutional Court's positive decision on the legality of the ESM). The positive mood was further bolstered by Premier Wen Jiabao's statements late yesterday at the World Economic Forum in Tianjin that China's government is prepared to support growth. Elsewhere, monetary policy meetings will be held tomorrow in Korea, Indonesia and the Philippines.*

### India's July IP remains subdued

Industrial production growth came out at a meager 0.1% y/y (consensus: 0.5%), up from June's -1.8% contraction, with momentum remaining weak due to sluggish manufacturing activity. Tight lending conditions, high inflation, and last July's power failures are also undermining production. Looking ahead, the RBI's next policy meeting will be held on September 17, where we expect interest rates to be kept on hold in light of India's still-high inflation rate, but a 25bp cut in the cash reserve ratio to 4.5% is possible to help reduce funding costs by banks.

### Korea's unemployment remains stable ahead of tomorrow's BOK decision

The August unemployment rate stayed flat at 3.1% (seasonally adjusted), marking a better-than-expected outturn (consensus: 3.2%) as the economy created 364,000 jobs for the month. Despite today's positive outturn, we expect the central bank to cut interest rates tomorrow at its monthly policy meeting given slowing growth (the BOK last cut rates by 25 bps in July, to 3.00%). Such a move would also come after the government's announcement earlier this week of a US\$5.2bn stimulus package over 2012 and 2013.

### Reserve Bank of India raises ceiling for commercial borrowings

The Reserve Bank of India on Tuesday increased the limit on external commercial borrowings by an individual company, adding to a recent spate of similar policy moves to encourage capital inflows and increase investment. In this light, the Indian finance ministry announced today that over the past month they have approved 21 foreign direct investment proposals with an aggregate value of USD 433mn, which are primarily concentrated in the pharmaceutical industry.
