Universidad de Valencia

In this paper we construct a data set on EU cohesion aid to Spain during the planning period 2000-06. The data are disaggregated by region, year and function and attempt to approximate the timing of actual executed expenditure on assisted projects.

Key words: Structural Funds, EU Cohesion policy

JEL Classification: R58

1: This paper is part of a research project cofinanced by the ERDF and the Research Department of BBVA. Financial support from the Spanish Ministry of Science and Innovation under project ECO2008-04837/ECON is also gratefully acknowledged. We would like to thank José Luis Kaiser, David Azcárate and Ángeles Holgado (from the Directorate General for European Funds of the Spanish Ministry of Finance) for their invaluable help in putting together the data described here and Kai Stryczynski, Philippe Mofort and Mikel Landabaso (DG Regio) for providing additional data and useful suggestions.
